Weißbier

ERDINGER Kristall – sparkling enjoyment

ERDINGER Kristall ensures unclouded – in the true meaning of the word – wheat beer enjoyment. This top-fermenting speciality glistens golden-yellow in the glass. Its trump card: an extra portion of natural carbonic acid from the fermentation process ensures a deliciously tingling sensation in the mouth. And that makes Kristall the liveliest of all ERDINGER's wheat beers. Well-balanced malt notes harmonize pleasantly with hints of fruit. The perfect accompaniment for stimulating moments!

Brewed according to the Bavarian Purity Law.
